### *THE CASTLE OF CURIEL DE DUERO*

*Curiel Castle is one of the oldest fortresses in Castilla y León, residence of kings, endowment of several queens, asylum of nobles, prison of relevant figures and participant or witness of important events in our history.*

*Its origins probably date back to the 7th century, as Visigothic vestiges of that time were found on its slopes, although a Roman coin of Arcadius (4th century) has recently been found within the fortress walls. Fully documented from the 12th century, it has remained in a progressive ruin for the last seven hundred years, until in 2003 it was put up for auction by the State Heritage and was acquired, its ruins consolidated, rehabilitated in the most rigorous way possible on documentary and archaeological and adapted inside to become the Hotel-Restaurant RR Curiel Castle.*
